Clipping Mask – Part 1 – Your <u>Name</u> OR a <u>Word</u> That Identifies You
Recommended: Use 300 dpi (resolution). Use a thick font style, stretch/transform the text to fill the width of the paper.

Required: Add a <u>minimum of one</u> effect / layer style!

Steps for a clipping mask:
- Picture on top layer
- Text on bottom layer
- Right click on top layer – create clipping mask

Former Students' Examples (from O'Neill High School)

Clipping Mask – Part 2 – Geographic Location

Create a postcard for a town/city, state, country, continent, etc. – each letter should be clipped with a different image!

Required:

- Use a pattern from the internet for the background or a gradient
- Add a stamp in the top right corner
- Your name in bottom left or right.
